

A WORD FROM

Zollie

Greetings to our faithful partners!

This month we focus on Teen Challenge International, U.S.A. Over two hundred residential programs across the United States provide Christ-centered, faith-based solutions to men, women, teen boys, teen girls, and families struggling with life-controlling addictions. Teen Challenge also offers discipleship curriculum to help participants grow in their faith and gain a foundation for continued success after completing the residential program.

Peter recently shared, "A year ago I was bound by addiction and the sin that comes with it. I had been in and out of rehab for fifteen years without success. Finally, I was introduced to Teen Challenge where I learned about my Lord and Savior Jesus Christ in a real and powerful way! After giving my struggles to Him, I felt peace and relief from stress and worries that I had never known before. I thank God every day for the forgiveness and mercy He has shown me!"

Will you join me in praying for Peter as he continues to recover and grow in faith?
